PROFILE

Self-taught **AI-first builder**. My core priority is developing **AI and automation systems** — I work daily with **Claude Code, Cursor and Gemini** and use **Model Context Protocol (MCP)** to wire agents to live data — across algorithmic trading bots, autonomous agents, an HTML5 game and AI content pipelines. In parallel I run **branded e-commerce** (WooCommerce/Shopify) as an **additional income stream**. All of these are active works-in-progress that I keep pushing forward. **11 industry AI certificates** (8 Anthropic incl. *Claude Code in Action & MCP: Advanced Topics*; 3 IBM SkillsBuild). A customer-facing sales background gives me strong communication and a bias for shipping.
